Lightbulbs

Urthboy

oh my love this time, this time
we've talked and i've told them
that they've no spines
so no more like this time again
because we float out of light
i'm out of it
all the lightbulbs glow
all the lightbulbs glow
we don't plan on burning out
we don't plan on burning out
we don't plan on burning out
if they're spinning around
they'll get all tangled in

what we go thru
so they're spinning around
well at least you're not standing still
all the lightbulbs glow
all the lightbulbs glow
maybe if you color yourselves in fire
maybe if you color yourselves in fire
maybe if you color yourselves in fire
color yourselves in yourselves(in fire)
color yourselves in yourselves(in fire)
color yourselves in yourselves(in fire)
