

Darling

Cold Fronts

Darling, we don't have much to say
To each other, I wanna see your face so
Darling, don't waste a tear
On me
I've been running
I wanna be around(Chorus)
I just need a little bit
I need a little bit more self control
A little bit
I need a little bit more
Self control
I don't wanna be a
Mystery
I don't wanna be a
Mystery anymoreDarling, I'll be dreaming of yesterday
Was it something
You can't ever replace
So darling, thought we wouldn't ever end up
This way
Cus' I promised, I'd always be around
Be around
But I just need a little bit(Chorus)
A little bit,
I need a little more self control
A little bit,
I need a little bit more self control
I don't wanna be a mystery
I don't wanna be
A mystery
Anymore*solo*(Chorus x2)
