

Law of Averages

Fear Before the March of Flames

And we wait (we wait) for the fog to roll in
Take a deep breath before we're back on the road again
I killed the forest with just one match.
Killed the forest with just one match You could see the dark
smoke clouds
as the ash rained down,
With no regard for the life that was lost, with no regard Dear john will you come with me
Dear john will you come with me
Dear john will you come with me
Dear john will you come with me Follow
me
to paradise Look over your shoulder, you stole her. Its over
To start we'll lop off your head
We'll give you six feet of blankets for a goodnight sleep
(Say a prayer for the dead and buried)
We'll give you six feet Say a prayer for the dead and buried
You'll be joining them real soon Say a prayer for the dead and buried
You'll be joining them real soon The easy way or the hard way.
You never learned your lesson The easy way or the hard way.
You never learned your lesson
