

# She's With Me

## High Valley

When the devil's knocking at my door  
When I'm broken and I'm battle worn  
Down in the valley, on my knees  
Yea she's, yea she's with me

Ain't she amazing, amazing, out of my league?  
And ain't it crazy, crazy, she happened to me?  
She calls me baby, baby, hard to believe  
That she's, yea she's with me

When my dreams are running out of road  
And the world around me's turning cold  
Anyone else would up and leave  
But she's, yea she's with me

Ain't she amazing, amazing, out of my league?  
And ain't it crazy, crazy, she happened to me?  
She calls me baby, baby, hard to believe  
That she's, yea she's with me

Top of the mountain and all the way down  
When I'm lost and when I'm found  
In the day, in the light, in the dark of the night  
When it all goes wrong, when it all goes right  
Whoa oh, I don't know what I'd do without her  
Whoa oh, she's gotta know I'm all about her

She's amazing, amazing  
Ain't she amazing, amazing?

Ain't she amazing, amazing, out of my league?  
And ain't it crazy, crazy, she happened to me?  
She calls me baby, baby, hard to believe  
That she's, yea she's with me

Ain't she amazing, amazing? (That girl, she's out of my league)  
And ain't it crazy, crazy, she happened to me?  
She calls me baby, baby, hard to believe  
That she's, yea she's with me

That she's, yea she's with me

Top of the mountain and all the way down  
When I'm lost and when I'm found  
In the day, in the light, in the dark of the night  
When it all goes wrong, when it all goes right
