

I Want You So Bad

Gloria Estefan & Miami Sound Machine

You're the only one to make me tremble
The one to show me how to laugh and cry
In your arms I feel complete surrender, why baby why?
To feel no need for lies or alibis
I want you so bad
Ooh baby, I really, really want you
What should we do? What should we do?
You know I want you
Should I stay, should I go? Really don't know
I'm so scared I'm afraid, I can't find a way
To say I love you
No ones's ever touched me like you've touched me
I swear that's no lie, I never thought I'd feel like this inside
Can't control this feeling deep within me, I can't keep inside
Yet I can't seem to let it go, oh no
I want you so bad
Ooh baby, I really, really want you
What should we do? What should we do?
You know I want you
I want you so bad, what should we do?
Ooh baby, baby, I really, really, really want you
