

# Right Love

## Jacquie Lee

In another place, in another time  
I would fall from grace for you  
I get off the stage  
And I run back home  
We'd escape, not a trace

Don't you know that's what I'd do?!But when I get you on the phone,

Every word comes out are wrong  
If my useless heart could speak,  
It would tell you,I-I-I-I I wanna love you better  
I-I-I-I I wanna stay forever  
How to stop bracing,  
How to stop chasing lights  
Could've been heaven,  
Could've been paradise?  
We have the right love,  
We have the right love,

At the wrong time!Can appreciate, then it gets too late  
And there's so much you should know

I'm not a perfect girl  
It's a messed up world,

You're the one in my life I'm 'bout to let goBut when I get you on the phone,

Every word comes out are wrong  
If my useless heart could speak,  
It would tell you,I-I-I-I I wanna love you better  
I-I-I-I I wanna stay forever  
How to stop bracing,  
How to stop chasing lights  
Could've been Heaven,  
Could've been Paradise?  
We have the right love,  
We have the right love,

At the wrong time!Maybe there's a star in the sky tonight  
That will shine our love in a different light

I'll let it go, if we let it go!I-I-I-I I wanna love you better  
I-I-I-I I wanna stay forever  
How to stop bracing,  
How to stop chasing lights?!  
Ooh oh, could've been Heaven,  
Could've been Paradise?

We have the right love,  
We have the right love,  
At the wrong time!
