Freeze Frame

Kpm Library 1104

Sometimes you run
Too scared to take
To take the fight
But hey, it's okay
I'm human too
I know what it's likeAwakening Feelings
Buried in the past, like dirt, like dirt, like dirt
It's like running barefoot on ice
It's cold and it's piercing
Again and again, you slip, you slip, you slip
I'm running barefoot on iceFreeze frame right here, right now
Stop the clock and the hands of time
Take a moment breathe in breathe out
Everything is gonna be just fineFreeze frame right here right now (2x)Sometimes it's hard, to turn your feelings
Into words!Bringing old memories back to life
That you've killed, you've killed, you've killed
Disintegrates you from inside, don't need no sympathy
All If I manage to stay alive, alive, alive
I'll walk out of this with prideFreeze frame right here, right now
Stop the clock and the hands of time
Take a moment breathe in breathe out
Everything is gonna be just fineFrom 10 years of silence, I'm now breaking new ground
From a closed space of vacuum, I'm now starting to breathe
Take nothing for granted, That's what i have learned
That's what i have learned, That's what i have learnedTake a moment breathe in, breathe out
Everything's gonna be just fineFreeze frame right here, right now
Stop the clock and the hands of time
Take a moment breathe in breathe out
Everything is gonna be just fineFreeze frame right here right now (2x)
