World Goes Round

Saigon Kick

In the light of day I can still see the light, see the light
Veins of red and blue dance on tracks in the night, in the nightOnce upon a dream I had she came and said okay
Once upon a dream I had she came and said okay
The world goes round, the world goes roundShe will come to you with a scream for her life, for her life
Act of God, part two her life bleeds off the knife, off the knifeOnce upon a dream I had she came and said okay
Once upon a dream I had she came and said okay
The world goes round, the world goes round
The world goes round, the world goes roundOnce upon a dream I had she came and said okay
Once upon a dream I had she came and said okay
The world goes round, the world goes round
The world goes round, the world goes roundIn the light of day I can still see the light, see the light
