

# Your Love Is Mine (Fun(k)House Remix)

[Evelyn](#)

Your voice, your words  
Echo wherever I go  
Your touch it hurts  
You're so far away when you close  
And I can't take it another day  
I can show you any other way  
If I told you "would it make you stay?"  
Make you stay, make you stay You don't even know it  
That your love is mine  
I'm ready to show it  
That your love is mine  
You don't even know it You don't even know it  
That your love is mine  
I'm ready to show it  
That your love is mine Each step we take  
Is pushing you further from me  
I dream awake  
Your shadow refuses to leave  
And I can't take it another day  
I can show you any other way  
Cause I always been too afraid  
But I won't let you slip away I got you in my mind  
Your heart, your kiss  
You stuck in my head  
Your touch is bliss  
I'm running outta time  
I'm running outta time  
I'm running outta time  
To make you see You don't even know it  
That your love is mine  
I'm ready to show it  
That your love is mine  
You don't even know it You don't even know it  
That your love is mine  
I'm ready to show it  
That your love is mine  
You don't even know it  
That your love is mine  
I'm ready to show it

That your love is mine  
You don't even know it
