

Compulsion of Virus and Fever

III NiÃ±o

Paz

Encima e las razas

With these eyes

From cielos above us

You're so fast

To cut to the chase

You'll be last

To win in this lifeless race

No more war

No more resolutions

Solutions are drowning

In puddles of weakness

And it has never rained like this

Son cosas de hermanos

Me labo las manos

Tu sabes muy bien

Rise

Dos

Por dos en la fila

In this show

Of virus and fever

You can live

With nada but stress

You will burn

In all of your useless waste

No more war

No more resolutions

Solutions are drowning

In puddles of weakness

And it has never rained like this

No more war

There is no solution

Unscience we're drowning

In puddles of weakness

And all this rain will never cease

No more war

No more death

Everyone's drowning

In puddles of weakness
Rise
No more war
No more resolutions
Solutions are drowning
In puddles of weakness
And it has never rained like this
No more war
There is no solution
Unconscience we're drowning
In puddles of weakness
And all this rain will never cease
