

# Dopeman

## Medicated MotherFuckers

Dopeman's got another big plan  
To sell it to you or anyone he can  
Because this is much better than minimum wage  
And no matter how things they can  
Because dopeman's reasons will always stay the same  
And for some people it's the only way to stay sane

Think about it for a minute more  
It's a life of crime or hanging round the liquor store  
Or a quick drug fix just to get you through  
When the city comes down what would you do  
Take a welfare state  
Or a dopeman's fate  
And keep the cycle spinning around
