

Flying

Badfinger

Feel like I'm flying, I'm dying to say
Want you forever and easy
Be where you are, where I want you to stay Don't you know what I'm saying?
Believe me Feel like I'm falling, it's all I can do
Flying and dying is lonely
Deeper and darker, no way to forgive No way to believe what you told me
No way to believe what you told me
Way to believe Kings in their castles wound up in the wine
Drinking their confidence daily
Wish I could be into that peace of mind Wish I could be into crazy
Wish I could be into crazy
Wish I could be
