## **Atmosphere**

## **Kaskade**

When I was young I would stand alone With visions of worlds that were all my own The lights in the sky weren't that far away Living in the vastness of outer spaceAll my life I've been a star Holding a light up in the dark While I try to keep clear Of all the waves in your atmosphereAll my life I've been a star Holding a light up in the dark While I try to keep clear Of all the waves in your atmosphere Of all the waves in your atmosphere

Of all the waves in your atmosphereWhen I was young I could hear the sound

A melody pure and a rhythm loud

Oh, this sound took me away

Carried through the vastness of outer spaceAll my life I've been a star

Holding a light up in the dark

While I try to keep clear

Of all the waves in your atmosphereAll my life I've been a star

Holding a light up in the dark

While I try to keep clear

Of all the waves in your atmosphere

Of all the waves in your atmosphere

Of all the waves in your atmosphereOf all the waves in your atmosphere

Of all the waves in your atmosphere

Of all the waves in your atmosphere
