

# Into The Gutter

## The Answer

Lights, they gotta go can't be better like this  
Did you even know that the light exists  
Becase you need me and I need you  
Leave a rock alone when it can't be moved  
Don't go into the gutter, don't go into the gutter  
Don't go...It means so much to me, please  
Don't go into the gutter, don't go into the gutter  
Don't go...
