So Well

Dawes

20, 21, 22, 23, 24, 25, 26 still alive

It's dragging me under, don't think I'll recover

A stone in the water, a nail in my shoulder

Just put it together, you think you're so clever

Can we make it better, climb the mountain together? It's gonna break, gonna crack, gonna fall down and smash

Paralyze, oxidize, feel us drifting apart

It's gonna break, gonna crack, gonna fall down and smash

Paralyze, oxidize, feel us drifting apartTwenty years older, the city gets colder

Still reaching for cover, we live and we suffer

Just put it together, if you think you're so clever

Can you make it better, pull the pieces together? It's gonna break, gonna crack, gonna fall down and smash

Paralyze, oxidize, feel us drifting apart

It's gonna break, gonna crack, gonna fall down and smash

Paralyze, oxidize, feel us drifting apart40, 41, 42, 43, 44, 45, 46, still alive

It's dragging me under, don't think I'll recover

But we'll make it better, climb the mountain togetherIt's gonna break, gonna crack, gonna fall down and smash

Paralyze, oxidize, feel us drifting apart

It's gonna break, gonna crack, gonna fall down and smash

Paralyze, oxidize, feel us drifting apartIt's gonna break, gonna crack, gonna fall down and smash

Paralyze, oxidize, feel us drifting apart

It's gonna break, gonna crack, gonna fall down and smash

Paralyze, oxidize, feel us drifting apartIt's gonna break, gonna crack, gonna fall down and smash

Paralyze, oxidize, feel us drifting apart

It's gonna break, gonna crack, gonna fall down and smash

Paralyze, oxidize, feel us drifting apart

Paralyze, oxidize, feel us drifting apart
