

# Strange

Joe Satriani

My heart is pounding  
My stomach's inside out  
I'm feeling kinda shaky  
My mind is full of doubt All I ever think about  
Is fearing fear itself  
Wish I could unscrew my head  
And put it on the shelf You know I'm feeling kinda  
Strange  
You know I'm feeling kinda  
Strange Everything is twisted  
Everything is oh so tight  
Don't know what I'm looking at  
The lights are all too bright My brain's about to crumble  
Spill out on the floor  
Sweep 'em up, throw 'em away  
I don't want 'em any more You know I'm feeling kinda  
Strange  
You know I'm feeling kinda  
Strange  
Strange Clouds race across the sky  
Day turns into night  
Still there are the questions  
No answers in sight Everything is twisted  
Everything is oh so tight  
Staring out the window  
Everything is just too bright My brain's about to crumble  
Spill out on the floor  
Wish I could unscrew my head  
And kick it out the door You know I'm feeling kinda  
Strange  
You know I'm feeling kinda  
Strange Strange  
Strange  
Strange
