

Day To Daze

NOFX

I trusted you at least I thought I could
I tried to believe when you said
I got a better job I can pay you back
Real soon. No! I don't do those drugs no more
I know my luck has changed my lifestyle
Has rearranged I'm on my feet You'll never change your ways
Living from day to daze
Why don't you fade away I've heard all this before
When you were sleeping on my floor
You said only for a day
But as those 3 weeks passed
My patience didn't last nor my food
