

Troubleshooter

Judas Priest

You've got it, I want it
My little troubleshooter
I need it, you feed it
My hunger drives me to ya You bring me round with your velvet hands
You're gettin' new life to me
You put me back to promised land
Just where you know I should be You can take me
You can shake me
You can break me down You're givin' I'm gettin'
I'm gettin' satisfaction
You're makin' I'm takin'
I want some heavy action You're bendin' and I'm mendin'
Gettin' back together
You really got what it takes
To make a bad man better You can take me
You can shake me
You can break me down
