

Bang Bang

Lady Sovereign

Oi, oi, oi, poloi, bags of noise, wake up
Shake it up like milk shakes, makin' money, feelin' great
A pusher dis and cuss, if I'm in discuss let me discuss
So I fling you around like discuss
I report now fade away, fade away
Fade away, fade away, fade away
Don't stop my thing now, duplicate
Duplicate, duplicate, duplicate, duplicate
I got that bang, bang sound
So come on crank it loud
I got that bang, bang sound
So come on crank it loud
My brain is scrambled eggs and tangled lips
Some of my fans would be obsessed
Now wouldn't catch me in a dress
Hands off of my breasts
My ponytail is dead
But I wear a hat instead
Sideways, it's my way

Now let the speakers vibrate
Now, ssh and shoo like a dude or a girl
Now who are you to try and ruin my world?
Now shut your mouth 'cause I'm talkin' now
And if you don't like well
I got that bang, bang sound
So come on crank it loud
I got that bang, bang sound
So come on crank it loud
So everybody
Everybody
Yeah, everybody
S O V
I got that bang, bang sound
So come on crank it loud
I got that bang, bang sound
So come on crank it loud
