

# The Archer (feat. Chachille)

## Souleye

Chorus:There is a fight / A fight that is worth fighting /  
For the light / The light that's in your eyes /  
Love it that you know that your more then the animal /  
You hold in side / Archer in the sky / Sagittarius / 2xVerse 1I clear my mind for a minute / Remove distractions /  
Call forth the angels in this spiritual conquest /  
Small steps I take make waves through the chaos /  
Chaotic out of body wake me up before I'm zombie /  
Holy mother share this water it is pure from the chalice /  
I married my Cinderella / Oh heavenly father /  
I found your journal and I read it / It said it wouldn't be long /  
Before the dread of the end / Of the world would finally be gone /  
It's like every ones excited for something so wrong /  
It's that flight or freezes mechanisms /  
Label it how you want to / Illuminati or reptilian /  
We can fight on and on / Over the cause of the pain /  
But that's not a fight worth fighting for /  
Let the sky above me / Clear out all the clouds now /  
No longer afraid of living in radiation /  
Stereotypical pick a part a piece of poem /  
And Leave for another / We write it in our own words /  
Drugs be feeding the hungry / A single mother looking for quarters /  
That's what the sign size / I want to believe it /  
But the same person I spotted headed over to the liquor store /  
Know tell me what's a lie mean to thief / Even Robin Hood /  
With his bow and his arrow / Was stealing from those /  
And who knows if they truly did deserve It /  
The loss of purpose faith and love can we ask for help /  
Even when where feeling our health /  
Waiting for time to have its way / I wish, I wish upon a star tonight /  
That the last apple to eat /  
Could be split enough yeah to be able to feed /  
Am I looking for God or is God looking for me /  
I like to think we are looking at one another /  
I know that it's hard for us to look at each other /  
And I feel that's what it will take /  
For us to have harmony together/Chorus:There is a fight / A fight that is worth fighting /  
For the light / The light that's in your eyes /  
Love it that you know that your more then the animal /  
You hold in side / Archer in the sky / Sagittarius / 2xVerse 2It's like I need more time / I don't have enough /

The tar pits near me / But I'm not jumping in /  
I walk with a ghost who wants to teach me how to live /  
With horse legs he's half animal and half man /  
The view is panoramic from the picture he's painting /  
The wind is warm on his back / And as he falls to his knees /  
He thinks he hears a subtle laugh / It's like the cry from a child /  
Yet there's no one around it's just him alone on the hunt /  
He knows his heart is his home so he's not afraid to move on /  
Divine archer bring me my bow of burning gold /  
Allow the arrow to be a symbol between heaven and earth /  
The struggle where running from /  
The target that where aiming at seems to be getting further away /  
He's hiding his anger now / Until it all comes out /  
In a fit of fury uncontrolled / Untolerable  
Hands upon his head he's covering up his eyes /  
And when he does he see's is terror inside /  
It's a terrible double bind / So he thinks he's trapped /  
Gives up hope and stops seeing all the light in eyes /  
It's no wonder the dominos all fall in a row /  
Made the great escape some see it as cowardice  
I see it more like samurai not afraid to go die /  
Now come along and walk with me / Here, wear my shoes /  
There is a power way bigger and it keeps moving through /  
I see the symbol in the sky of the archer /  
Hands back he's taking aim /  
Nothing can break his focus this moment  
He's been waiting for his whole life /  
The holy day when all souls celebrate /  
The cup overflows / The apple is split /  
The targets been hit right down the middle /  
It's a bullseye / And to my brother The Sagittarius /  
I wrote this song for you /  
To think you went on to the realms of light /  
And the mysterious /
