

Evergreen

[Roy Orbison](#)

Sometimes love will bloom in the springtime
Then like flowers in summer it will grow
Just to fade away in the winter
When the cold winds begin to blow But when it's evergreen, evergreen
It will last through the summer and winter too
When love is evergreen, evergreen
Like my love for you So hold my hand and tell me
You'll be mine through laughter or through tears
Then let the whole world see, our love will be
Evergreen through all the years For when it's evergreen, evergreen
It will last through the summer and winter too
When love is evergreen, evergreen
Like my love for you, like my love for you
