

Goddess On A Hiway

Mercury Rev

Well, I got us on a highway and I got us in a car
Got us going faster than we've ever gone before
I got us on a highway and I got us in a car
Got us going faster than we've ever gone before And I know it ain't gonna last
And I know it ain't gonna last
When I see your eyes arrive
They explode like two bugs on glass Far above the ocean, deep under the sea
There's a river running dry because of you and me
Far above the ocean, deep under the sea
There's a river running dry because of you and me And I know it ain't gonna last
And I know it ain't gonna last
When I see your eyes arrive
They explode like two bugs on glass She's a goddess on a highway, a goddess in a car
A goddess going faster than she's ever gone before
She's a goddess on a highway, a goddess in a car
A goddess going faster than she's ever gone before And I know it ain't gonna last
And I know it ain't gonna last
When I see your eyes arrive
They explode like two bugs on glass And I know it ain't gonna last ...
It ain't gonna last ...
