

# La japonaise

## Banda Magda

I feel the power of the stranger inside me  
A force of magic surrounds me  
This fountain within me is overflowing  
Peaceful and inviting  
Beautiful and enticing  
Rising sun bless me morning with a smile  
A magic pearl from the seas  
Born in a willow breaze  
Loyal friend my guardian angel in the sky  
You've served me well all these years  
Greeting with both hands trusting with no fears  
Till the end  
When everything is golden and everything is oh  
And everything is oh  
My only living treasure on this eartg  
When everything is golden  
Everything and everyone is oh
