Survivalisto

Skinny Puppy

serving, testing, armed race begun
depleted, uranium, flower with power of sun
complex, militant, woven ingrained us all
time-bomb, elegant, cast system done
I want a way out to get out fast
before it becomes too real
they want a war in this futures mess
extinction i think is for real
I want a way out to get out fast
before it becomes too real
they want a war in this futures mess
extinction i think is for real
living grade, construct
feeds on reconstruction
mercenary, contracts
nothing lay under the sun
six-gun, neighbors, watch, villages slide
uni-bombed, contracts, surf the system unfettered
i want a way out to get out fast
before it becomes too real
they want a war in this futures mess
extinction i think is for real
i want a way out to get out fast
before it becomes too real
they want a war in this futures mess
extinction i think is for realJimmie's clearly out of luck,time is gone logic is lost matters haven't vanished what is here has been un-done, soaking in the aftermath, hollow breathing in the bed, Mezame sheets of rotting things, the best kept secrets pillowing, divine host, kill the ghost, target faced with shadowed-voice, keeping massive overflow from sweeping in the way...Fake bomb, contest
Con-structionless, clones
dipped cone, war-head
tripled atomic drones
i want a way out to get out fast
before it becomes too real
they want a war in this futures mess
extinction i think is for real
i want a way out to get out fast
before it becomes too real
they want a war in this futures mess

extinction i think is for real
