

# I'm Doin' Alright

Van Zant

I got a spot in the country  
I got a dog in the yard  
I got a beat-up Chevy  
Rust kinda rough but she starts I got my granddaddy's shotgun  
I can shoot pretty good  
I got a nice little garden of weeds  
Tucked back up in the woods And I'm doin' all right, livin' my life  
You got yours and I got mine  
Yeah, it may not look like much to you  
But it's simple and it suits me fine Yeah, the sound of the rain and a lonely old train  
Listen to that engine whine  
'Cause I am what I am and I sleep good at night  
And I'm doin' alright I got a front porch for pickin'  
I got a national guitar  
I got some lightnin' for sippin'  
I've had about a jar I got a pretty old lady  
She's good at stretchin' a dime  
In this little corner a-heaven mister  
We have a helluva time And I'm doin' all right, livin' my life  
You got yours and I got mine  
Yeah, it may not look like much to you  
But it's simple and it suits me fine Yeah, the sound of the rain and a lonely old train  
Listen to that engine whine  
Yeah, I am what I am and I don't give a damn  
And I'm doin' alright All the rats in the city  
Are livin' out of a box  
They look down their nose, at my life, I suppose  
And I just laugh my country ass off Yeah, I'm doin' all right, livin' my life  
You got yours and I got mine  
Yeah, it may not look like much to you  
But it's simple and it suits me fine Yeah, the sound of the rain and a lonely old train  
Listen to that engine whine  
'Cause I am what I am and I sleep good at night  
And I'm doin' alright  
Yeah, I'm doin' alright, doin' alright
