

I've Got the Disease

Fang

Advisory - the following lyrics contain explicit language:

Gonna tell you about the wretched impulse
I want to come like a nuclear missile
I want that pooch licking on my cock
My geyser will blow steam off
I've got the disease
It always creeps into my dreams
I become a dog fucking sex machine
Beastiality is what I like
Fuck your cat stab it with my knife
I rip your cows horned head off
Fuck his brain with my chainsaw
Take the sheep put their legs in my boots
Put my blue weiner up the poop chute
