

Space and Time (Remastered)

009 Sound System

I remember in the space and time
And I remember what we were like
All the matter was synthesized Yeah I remember when the future died
And all the rain will keep it dark
Because of why I'm so alone Oh give me that,
Let me change,
I take my love,
A higher place,
The matter of fact,
Don't matter why? it's alright. We could be,
Only this time,
Reaching back,
Across the line,
You and me,
Never asking why? Alright
