

Number 1 Dime

The Rangers

I'm feenin for this shawty, if you seen her you would
Cause shawty so bomb and she know I look good
And uhmm, she bad, yeah she on fire
But I got her drippin like a scuba diver
Addicted to her, she like a drug I can't quit
She the best I ever had
I'm on some Drake type shh
And her booty so round, she want me to hit it
B-booty so round, but I ain't Chris Brown
But I still get it poppin, just throw it in the bag
Cause the checks is never stoppin
Gettin that money baby you can have it all
And when you wanna scream my name
All you gotta do is call
Baby you stay on my head like a fitted cap
And everything you do you know I'm feelin that
Baby you could run my heart like a marathon
And I'll do anything for you to put me on
Cause baby you stay on my blog each and every night
I stay on my AIM each and every night
You stay at the shows each and every time
And when I slow it down she'll be my number one dime
I got her drippin like a faucet
She know Langston got that act right
On that, whoppin on that AIM
Now you 'bout to get that back tight
Left, right, up, down
From her head to her toe, she know I, I put it down
I'm goin in cause she go harder on my jock
From her fly girl kicks to the jazzy lil mall
And her daddy ain't home
So let's hope these walls don't talk
Cause when I get her in the room
She just takes it off

And that's why she my number one dime
And that's why I hit her when I get some time
She like an angel from the sky
She like a gift from above

Yeah, I got a lot of girls
But this one get all of my love
Baby you stay on my head like a fitted cap
And everything you do you know I'm feelin that
Baby you could run my heart like a marathon
And I'll do anything for you to put me on
Cause baby you stay on my blog each and every night
I stay on my AIM each and every night
You stay at the shows each and every time
And when I slow it down she'll be my number one dime
I stay on her bumper
She addicted to the fast life
She say that she love me and she only met me last night
She want some lovin, Imma give it to her all night
She wanna be a star so I hit her with the Spotlight
Baby you stay on my head like a fitted cap
And everything you do you know I'm feelin that
Baby you could run my heart like a marathon
And I'll do anything for you to put me on
Cause baby you stay on my blog each and every night
I stay on my AIM each and every night
You stay at the shows each and every time
And when I slow it down she'll be my number one dime
You'll be my number one girl
You'll be my number one girl
You'll be my number one girl
Number One
Number One
Yeahh...
Number One
