

# Town

## The Lads

(V1)

I used to be so scared of going to Manners Mall  
Of walking past those staring eyes that made me feel so small  
Creeping up and down trying to find a fault to see  
So they could lock me up inside and throw away the key(V2)  
I've tried being someone else just so I could belong  
I've lived my life in fear of putting one foot wrong  
Although your words may hurt me it's time for me to go  
I'm trying to be myself now  
And I think that you should know that...(CH)  
I can go into town by myself if I want to  
Look around at the world with my own eyes  
I don't have to be afraid  
Why do we try to be the same competing with each other  
All dressed up in brown cords and pyjamas  
Pretending to be cool(V3)  
I watched the world go by through the window of my mind  
But how I saw myself made friends hard to find  
I wasn't sure you liked me although I think you tried  
I wanted you to like me, to fill the hole inside
