

I Will Go On

National Park Radio

When you walk
Down that open road
You're passing by
Those things untold
And they say
When the battle breaks
I'll find my way
Or fight until
This body fades
And brings me home
When you want
For your life to be
Not what it is
But what you see
You should know
In a way it's true
Our future's formed
By what we do
So take the chance
Before it's gone
I will go on, I will go on
Oh I'll go running down the road
I'll keep on running down the road
It's been said
There's an easy way
Just go back home
To where it's safe
But my heart
It's been telling me
To take the chance
And they will see
That we can live
And still be free
I will go on, I will go on
Oh I'll go running down the road
I'll keep on running down the road
Sometimes I feel like I can't give enough
Defeated inside oh I feel like I want to give up
But when darkness surrounds you
And there is no end in sight
The reward only waits for those who endure this fight
I will go on, I will go on
Oh I'll go running down the road
I'll keep on running down the road
I will go on, I will go on
Oh I'll go running down the road

I'll keep on running down the road
Oh I'll go running down the road
I'll keep on running down the road
Oh I'll go running down the road
I'll keep on running down the road
