Narrow Sun

Fool's Gold

I watched you rile up and wick away
Melted candle where is your flame?
Does excitement not equal change?
Just this timeI liked you better when you were free
A flowerbed by the salted sea
Before the blindfold was everything
You were aliveIt takes a narrow sun
To light your narrow run
It takes a narrow sun
To light your narrow runI have a feeling well meet again
Under silence and heavy rain
Ill invite you to take my hand
Just this timeIt takes a narrow sun
To light your narrow run
It takes a narrow sun
To light your narrow runIllumination?
Your own direction?It takes a narrow sun
To light your narrow run
It takes a narrow sun
To light your narrow run
