Stalemate

Millencolin

You say you wanna leave me say you wanna be free
From everything you hate
Get yourself together we'll always be together
Love, you just can not rateBeen so long since we hooked been so long since we took
Time to get things right
But I'll be here forever I'll lie to you forever
Now, it doesn't look brightNobody is killing more time than you and I
Everybody's willing somehow to say goodbyeI think we're getting used to, used to be abused to
Doubt is all there is
We can not spread out wings out can not do a new thing
Drought on what we missWhen everything is falling it's like we both are crawling
Around, around again
Every fight is too long every word is too strong
Bound to end it all, but when?The stalemate's on and what we had is dead and gone
It's like we just don't care, we're going nowhereNobody is killing more time than you and I
Everybody's willing somehow to say goodbye
Nobody is killing more time than you and I
Everybody's willing somehow to say goodbyeI wanna say goodbye, yeah, I wanna say goodbye
Goodbye to our big life lie, where nothing's gonna be alright
You know this is our best white lie nothing's gonna be alright
It doesn't matter how we try, I wanna ask you why we can't let it die?
Even though we both have tried, you know I always question why
Why we just can't let it die?Nobody is killing more time than you and I
Everybody's willing somehow to say goodbye
Nobody is killing more time than you and I
Everybody's willing somehow to say goodbyeIt's our big life lie, it's our big life lie
Yeah, it's our big life lie, It's our big life lie
