Learn to Lose

Hockey

I don't know what to do
I don't know what to do
I don't know what to do
I don't know what to do,
All these times it's worked
All these times are gone, are gone
All these times are loved, ooh
Well you know I've got to learn to lose for a while
Yeah I've got to learn, to lose for a while
I guess I've got to learn, you used to be mine
Wow I've got to learn learn learn, you used to be my love
Tell I don't love one day, turn my troubles to gold
And I long to be done with all these nightmare miles
They got behind my shoes, and they got behind my style
I'm goin' down the river fast times
All the towns I've worked
All the towns I've known
All the towns I've craved, wow
Well you know I've got to learn to lose for a while
Yeah I've got to learn, to lose for a while
I guess I've got to learn, you used to be mine
Wow I've got to learn learn learn, you used to be my love
Tell I don't love one day, turn my troubles to gold(Break)I don't know what to do
I don't know what to do
I don't know what to do
I don't know what to do
Last time I lost control of my confidence it took me
Five years to get it back
And took my good chances from me
I've made some good arrangements
I've made some bad arrangements
Don't know which one came first
The promise that its reverse
How close did you get to the end of the line?
Well you know I've got to learn to lose for a while
Yeah I've got to learn, to lose for a while
I guess I've got to learn, you used to be mine
Wow I've got to learn learn learn, you used to be my love
Tell I don't love one day, turn my troubles to gold

Wow I've got to learn, I've to learn now, now
You know I've got to learn, to lose
You've got to learn to lose
You know I've got to learn, to lose
I've got to learn to lose
Wow well tell I don't love one day, turn my troubles to gold
