More Than Ever

Cameron Bedell

I aint no expert but i aint no fool
Since when was it okay to bring your god to school
I know what i believe
not everyone agrees
but that dont have to mean we have to start a war
All the things i would ask for if i could knock on heavens door
cause everytime i turn around
I see the world is falling down down down
Were falling down
wooow walking deeper in the dark looking for a hand thats reaching out were crying now more then ever
we need you now
We've al got problems
we've all got pain
we think the bottoms gone or was she all away
Were all just sinners
we need a constant grace
we need some manters
oh lord we need a way
All the things i would ask for
if i could knock on heavens door cause everytime i turn around i see the world is falling down down down
Were falling down wooow walking deeper in the dark looking for a hand thats reaching out were crying now more then ever
we need you now
Wooooow
We need you now
All that could chance
if the world called out your name
lord thats all im asking for
if id be knocking at your door
Cause everytime i turn around
I see the world thats falling down down down
were falling down
wooow
walking deeper in the dark
Looking for a hand thats reaching out were crying now more then ever oh were crying now more then ever ohh
we need you now ohh
we need you now
