

# Speak Easy

311

If there's a scream inside of you just let it go  
You're beating yourself up baby don't you know  
You've got to get through  
And lift the roof off your soul It's like a pain locked in a part of your heart  
It's got no reason to leave it unless you start  
To warm it up  
Be wise and be smart Out on the ocean  
There's no one around no one to hear a sound  
It's just us out here out on the ocean  
Speaking freely Away from the city  
Away from the ears that bug us and judge us  
It's so liberating to be free  
And my heart slows down Nice and easy  
And your breathing will be pleasing  
Just speak easy  
And say what's on your mind I search for something to compare you to  
Thought long and hard for a simile true  
Now I'm suddenly aware  
End the quest you're beyond compare, so speak easy If there's a shadow in your life then there's sunshine  
Things turning inside out all the time  
Just rewind  
It's all in your mind Oh, so speak easy out here we're floating  
Late in the night and the only light to guide us is a  
Full moon that's glowing  
On the sea Nice and easy  
And your breathing will be pleasing  
Just speak easy  
And say what's on your mind I search for something to compare you to  
Thought long and hard for a simile true  
Now I'm suddenly aware  
End the quest you're beyond compare, so speak easy Speak easy  
Speak easy  
Speak easy
