Try

Josh Hoge

Ive been trying to reach out every chance I get
Living this relationship over the phone
Ive been feeling strung out down this lonely road
Find me an airplane or a midnight train and take me home
Traveling through the night to bring you love
Nothings gonna keep me goneIm gonna try, gonna try
Try to make up the time
For all of these lonely nights
That I wasnt by your side
Im gonna try for tonight
Baby, its all about you
And Im gon' make love to you
Wont stop til you forget what we've went through
Im gonna try, gonna try, I'm gonna try babeThousands of miles, lonely motels baby
Cocaine and cigarettes, quite a few regrets, this is hell
I hold your face, hold your face in my hands babe
You know its not the same when it's in a frame
To be with you now I'd do anything
I would run through fire, I would walk through glass
Nothing's gonna keep me gone
Nothing's gonna keep me goneIm gonna try, gonna try
Try to make up the time
For all of these lonely nights
That I wasnt by your side
Im gonna try for tonight
Baby, its all about you
And Im gon' make love to you
Wont stop til you forget what we've went through
Im gonna tryBaby Im finally rolling on
Sugar turn the lights down low
Baby get ready, ready, readyOh Im gonna try
Try and make up the time
For all of these lonely nights
I wasnt by your side
Im gonna try for tonight
Baby, its all about you
Oh and Im gonna make love to you
Wont stop til you forget what we've been through
Do you know baby

Im gonna try, gonna try, I'm gonna try, Gonna try
Im gonna try, Gonna try, Oh Oh Oh
I'm gonna try
