Heaven

The Fire Theft

Heaven
Are you really waiting outside the door
Never thought I'd hear the words before the road
SeverIt's the simple things that are so hard to grasp
Can't find myself in all the days that passed
But I can feel it when it shines
Nevermind I'm falling in love with youCan't find the road that runs through
Falling in love with you
Heaven
Are you really waiting outside the doorNever thought I'd hear the words before the road
Sever
It's the simple things that are so hard to grasp
Can't find myself in all these days that passBut I can find feel it when it shines
Nevermind the way they shy
Turning around along the trail
My whole world is falling in love with youCan't find the road that runs through
Falling in love with you
Can't find the road that gets through
