Time to Go

State Shirt

Push the clouds up in the sky
Gravity fades as you fly
Let them take on your eyes
Yes the battle is over,
It's time to go.Feel all the love that lives in your heart
These are the words that keep us apart
Try to become the one that you are
I will not be here but I won't go farEveryone's got a few to bear
Hold up the stars with your hands
Midnight black it pushes down
Just enough strength to break a hole
Go on, slide through and catch your soulFeel all the love that lives in your heart
These are the words that keep us apart
Try to become the one that you are
I will not be here but I won't go farToo late to look back now
What if I'm wrong?
Don't let your last breath of air keep you down.
Don't let your rockets fail
Just look aroundWhere will you fall?Feel all the love that lives in your heart
Everyone has got to fear
These are the words that keep us apart
Never been so crystal clear
Try to become the one that you are
Don't let the last breath keep you down
I will not be here but I won't go far
