Be With You

Aziatix

[Chorus I]
Like the music in my head
Thatâ€™s playinâ€™ over and over and over
Girl I canâ€™t get you out my head
Wanna be with you
Just to be with you
Wanna be with you
Just to be with you Yeah

[Verse I]
The moment we touched I already knew
You would be my number one
Tonight is the night
Are you ready to go
We gonna take this all the way

[Rap I]
Feel the vibe, I feel the high when shorty shorty shakes it low
Head to toe you steal the show, baby you already know
Feel the bounce and we gonâ€™ rock the house until the roof goes off and hits the floor
After party arty put it on me, take it nice and slow

[Chorus II]
Like the music in my head
Thatâ€™s playinâ€™ over and over and over
Girl I canâ€™t get you out my head
Wanna be with you
Just to be with you
So let the music start
To the beat of my heart
Wanna dance the night away
Wanna be with you
Just to be with you Yeah

[Rap II]
Sheâ€™s stuck in my head like catchy tunes, thatâ€™s sung with attitude, from the baddest crew
Aziatix status, nothing can break us girl weâ€™re shatter proof
If I had to choose, no one else comes after you, and Iâ€™m not here to flatter you
Attraction automatic, feel the magic POOF
So girl itâ€™s you and I (I wanna be with you)

Throw your hands up to the sky (Just wanna be with you)
Spread our wings and lets fly (I wanna be your love)
Ride â€˜till we die, So DJ let the music take us away

[Chorus III]
Like the music in my head
Thatâ€™s playinâ€™ over and over and over
Girl I canâ€™t get you out my head
Wanna be with you
Just to be with you
So let the music start
To the beat of my heart
Wanna dance the night away
Wanna be with you
Just to be with you Yeah

[Chorus IV]
Like the music in my head
Thatâ€™s playinâ€™ over and over and over
Girl I canâ€™t get you out my head
Wanna be with you
Just to be with you

[Rap III]
So girl itâ€™s you and I
Throw your hands up to the sky
Spread our wings and lets fly
Ride â€˜till we die, So DJ let the music take us away

[Chorus V]
Like the music in my head
Thatâ€™s playinâ€™ over and over and over
Girl I canâ€™t get you out my head
Wanna be with you
Just to be with you
So let the music start
To the beat of my heart
Wanna dance the night away
Wanna be with you
Just to be with you Yeah
