Lost In You

Digawolf

I can't stop thinking about you
I think there's something wrong with me
I'm in awe in all that you do
in secret you have captured me
You have touched the deepest part of my heart
and i'm forever lost in you
I hope none ever found a cure (Or, I hope they never find a cure)?
it feels so good to be lost in you

Yeaa, yeaa
yeaa, yeaa
and my heart is forever
and I miss you
and my heart is forever yours
and it's you
it's you I choose
it's you I choose

though we're apart your presence is near
like nature that has no fear
when i'm close to you i become
atmosphere, rain for my tears
I can't stop thinking about you
I think there's something wrong with me
I'm in awe in all that you do
In secret you have captured me

yeaa, yeaa
yeaa, yeaa
and the heart is forever
and I miss you
and my heart is forever yours
and it's you
it's you I choose
it's you I choose

It's you I choose.
