

# Lost In You

## Digawolf

I can't stop thinking about you  
I think there's something wrong with me  
I'm in awe in all that you do  
in secret you have captured me  
You have touched the deepest part of my heart  
and i'm forever lost in you  
I hope none ever found a cure (Or, I hope they never find a cure)?  
it feels so good to be lost in you

Yeaa, yeaa  
yeaa, yeaa  
and my heart is forever  
and I miss you  
and my heart is forever yours  
and it's you  
it's you I choose  
it's you I choose

though we're apart your presence is near  
like nature that has no fear  
when i'm close to you i become  
atmosphere, rain for my tears  
I can't stop thinking about you  
I think there's something wrong with me  
I'm in awe in all that you do  
In secret you have captured me

yeaa, yeaa  
yeaa, yeaa  
and the heart is forever  
and I miss you  
and my heart is forever yours  
and it's you  
it's you I choose  
it's you I choose

It's you I choose.
