

Regular John

Queens of the Stone Age

Who are you girl?
Who are you boy?
Bet I know what you're up to
Can I come along? Your home number on the wall
I just had to call, had to
You're not the only one
Who will run with a knife Open up your eyes
Open up your room
Open up your arms One six two seven eight
Two six three seven eight nine
Where's your daddy now?
I heard he ran away Who are you girl?
'Cause I'm so bored with myself
Anyway, any time and any place
I'll just hang around Open up your eyes
Open up your room
Open up your arms One six two seven eight
Two six three seven eight nine Open up your eyes
Open up your room
Open up your arms
Open up your door Open up your eyes
Open up your room
Open up your arms
