Good Ol' Country Harmony

Home Free

Won't you sing for me
Some good ol' country harmony
And let it ring
Just like Alabama would always sing
The night is young and so are we
And there's just one thing that'll kick it off more perfectly
And that's some good ol' country harmonyI was born a long way off from Tennessee
And I'll admit I barely felt a guitar on my knee
But I've always loved a southern song
The kind that makes you sing along to the melodyAnd you know it's even better when the voices come together
Like a symphonyWon't you sing for me
Some good ol' country harmony
And let it ring
Like them Oak Ridge Boys would always sing
The night is young and so are we
And there's just one thing that'll kick it off more perfectly
And that's some good ol' country harmonyThis old world gets crazier every day or two
And you owe it to yourself to do the things you love to do
Yeah I get to travel 'round
And make a lot of sound with this familyAnd here we go again, ya'll better join right in
On the count of three [One, Two, Three]Won't you sing for me (sing for me, yeah)
Some good ol' country harmony (harmony)
And let it ring (let it ring)
Like the Statler Brothers would always sing (like they always sing, yeah)
The night is young and so are we
And there's just one thing that'll kick it off more perfectly (perfectly)
And that's some good ol' country harmony (good ol' harmony)[Repeat Chorus 2x]
