

Sexual (La Da Di)

[Amber](#)

Don't you know that when you touch me baby that it's torture?
Brush up against me, I get chills all down my spineDon't make this one dimensional
The way I feel is sexual, the way I feel is sexual
It can't just be intellectualThe way I feel is sexual, the way I feel is sexual
When you're next to me
When you're next to meI confess I watch your mouth move baby when you're speaking
Study your body when you walk out of the roomDon't make this one dimensional
The way I feel is sexual, the way I feel is sexual
It can't just be intellectualThe way I feel is sexual, the way I feel is sexual
When you're next to me
When you're next to meWhen you're next to me
When you're next to meWhen you're next to me
When you're next to meWhen you're next to me
When you're next to me
