

Limousine (American Edit)

Hubert Kah

I'm leaving home
your baby's gone My mind is ache
I just can't sleep
With that locomotion theme in my black old limousine.
No wooden heart
I feel the rain They drink champagne
I just can't sleep
With that locomotion theme in my black old limousine.
My locomotion dream - Locomotion dream - living here in my black old limousine
Locomotion dream - living here in my black old limousine
Locomotion dream - living here in my black old limousine
Why don't you stay
so far away I just can't sleep with that locomotion
theme in my black old limousine.
No time for tea
no time for me As years go by
I just can't sleep
With that locomotion theme in my black old limousine.
My locomotion dream - Locomotion dream - living here in my black old limousine
... I'm rolling home
my time has come I'm on my way
don't let me down
In my black old limousine with that locomotion dream
Locomotion dream - living here in my black old
limousine
...
Locomotion dream - living here in my black old limousine
...
Locomotion dream - living here in my black old limousine
...
