

Everything I Wanted

Ashley Monroe

-Girl

Waking up with you makes me feel alive.(oh)
And every kiss you give still takes me by surprise
So I thought that I would tell the world today
My life has changed so ill say?

-Chorus

You are not a stranger. You're not just friend
You are not just lover who is sleeping in my bed
You are what I came for, always thinking of
you are everything I wanted and love

-Boy

You wash me with you eyes

You give me all your time
Someone I cant forget and I always dreamed Id find
So I thought id tell the world today
All because of you ill never be the same

Chorus Repeats

-Girls

So many times I told you so
I guess I wanted you to know.
