

Out of My Hands

Chrysalis

What a strange thing to find you here
Standing high above the atmosphere
Out of the blast you were
I'd thought you'd never return I'll take the long road back from here
It's gonna be a long trip back, my dear
Under the fire of the Sun
What more could I have done? What a strange thing to find you here
I could've sworn that you had disappeared
Into the fire of Sun
So much more I wish I could have done
I'll take the long road back from here
It's gonna be a long trip back, my dear
Under the fire of the Sun
What more could I have done?
It's a long road back from here
Out of the fire, and into the flame I'll take the long road back from here It's gonna be a long trip back, my dear
Under the fire of the Sun
Tell me what more could I have done?
