

I Am the City

ABBA

1993

Lead Vocals: Agnetha, Frida

Written by Benny Andersson & Bjorn Ulvaeus

Coming through a cloud, you're looking at me from above
And I'm a revelation spreading out before your eyes
And you find me beautiful and irresistible
A giant creature that forever seems to grow in size
And you feel a strange attraction
The air is vibrant and electrified
Welcome to me, here I am, my arms are open wide
Somewhere in the middle of the never-ending noise
There is a pulse, a steady rhythm of a heart that beats
And a million voices blend into a single voice
And you can hear it in the clamour of the crowded streets
People come and take their chances
Sometimes you win, sometimes you lose a lot
Come, make your own contribution to this melting-pot
I'm the street you walk, the language you talk
I am the city
The skyline is me, and the energy
I am the city
The famous hotels and the cocktail bars
And the funny smells and the turmoil of course
And the people, the air that you're breathing is me
Yes, I am the city, you let me be
People feed me with their lives, I am a hungry soul
And they all worship me and pay their homage day and night
Every day I hear a lot of tired shopping feet
But come tonight they will be dancing in the neon lights
Dazzled by the crazy magic
They're grabbing pieces of the fatted calf
And in the wind if you listen hard you'll hear me laugh
