

# Tied Up

**Barbara Mason**

Twist of Fate

Olivia Newton-John

(KipnerBecket)

Do we deserve a second chance?  
How did we fall into this circumstance?  
We weren't so straight and narrow  
This is much more than we deserve  
A higher voice has called the tune  
Two hearts that lost the beat will now resume  
The gift of life extension  
By divine intervention  
It's gotta be a strange twist of fate  
Telling me that Heaven can wait  
Telling me to get it right this time

Life doesn't mean a thing  
Without the love you bring  
Love is what we've found  
The second time around  
Don't understand what's going on  
Woke up this morning, all the hurt was gone  
This is a new beginning  
I'm back in the land of the living  
It's gotta be a strange twist of fate  
Telling me that Heaven can wait  
Telling me to get it right this time  
Life doesn't mean a thing  
Without the love you bring  
Love is what we've found  
The second time around
