

Most of All

Peter Frampton

When it starts to rain inside
You need a place to hide
Nowhere left to run You can hang on to a dreams
May not be just like it seems
You have no way to tell When you'll find, your peace of mind
Of this you can be sure That I need you most of all, I need you I used to know it all
No chance that I would fall
How could I tell? Cant see the wood for the trees
Then you helped to make me see
Your love became a part of me
Turned every thing around Theres a place, oh, so deep inside, I'd never, never been before
I need you more of all, I need you the more Theres a place, so deep inside, I'd never, I'll never let you down
I need you most of all, yes, I need you the most When it starts to rain inside
You don't have to hide
'Cause I need you by my side
I need you the most, need you the most
